

2008 EQIP Waiver for Starting a Practice PRIOR to Contract Approval

I request a waiver to start the identified Environmental Quality Incentives Program (EQIP) practice prior to contract approval. Starting a practice before the contract is approved will cause me to be ineligible for financial assistance for that practice unless this waiver has been granted.

This waiver does not guarantee contract approval. I may be ineligible to receive payments if the practice does not meet NRCS standards and specifications or if the contract is not approved.

This waiver expires September 30, 2009.
